Standard Specifications and Custom options

UK Retail price Including VAT	Export price Excluding VAT
----------------------------------	-------------------------------

ALL BASSES ARE SUPPLIED IN A STATUS HARD CASE

All models are available fretted, plain or lined fretless at no extra cost.

All models are set-up with Status "Hotwire" stainless steel strings.

Round-wound .040" gauge are fitted as standard on S-23 basses unless another gauge is requested.

Round-wound .045" gauge are fitted as standard on CW-2 and VMAN basses.

Status 'Hotwire' strings are available through our website. Single or double-ball.

Full specifications can be found on our website : status-graphite.com / information / specifications

STANDARD NECK OPTIONS

All basses have a bolt-on graphite reinforced 3-piece rock Maple neck with a Richlite fingerboard and a dual-action truss-rod.

The dual action truss-rod allows the player to set the neck relief and action to perfectly suit the strings and playing style.

Fingerboards have wraparound edge markers fitted as standard.

All models are available fretted, plain or lined fretless.

Bolt-on neck : Satin black polyurethane lacquer.

Bolt-on body : Satin polyurethane lacquer.

All headed models have a 34" (864mm) scale fingerboard with 24 frets, zero fret and phenolic string guide as standard.

All headless models have a 34" (864mm) scale fingerboard with 24 frets and zero fret as standard.

All 4 string basses have a standard string spacing of 19mm.

All 5 string basses have a standard string spacing of 18mm.

CUSTOM FRONT LED OPTIONS

LEDs are battery powered, light-up position markers which are set into the fingerboard.

They are available in red, blue, green and white. An extra battery is fitted to power the LEDs.

FRONT ONLY LEDs (Red, Blue, Green or White)

595.00	495.83
--------	--------

FRONT TRI-COLOUR LEDs

These look like regular front LEDs but can now be switched RED, GREEN or BLUE with a simple rotary switch.

995.00	829.17
--------	--------

HARDWARE

Bridge and tuner hardware is black as standard.

Schaller style strap-locks.

Hipshot D-tuner

26.00	21.67
155.00	129.17

PICKUP AND CIRCUIT OPTIONS

All Status pickups and circuits are designed and made here in our own workshop in Colchester, England..

Status soap-bar designs are naturally hum-cancelling and have a warm, 'punchy' tone with great character.

Status Paramatrix EQ and Tri-Max pickups may be fitted as a custom option to S-23 and CW-2 models.

The Paramatrix EQ has active bass / treble controls plus two parametric circuits for total control over the bass tone.

The Tri-Max Pickups have 3-way coil switching.

645.00	537.50
--------	--------

* NOTE * The Paramatrix circuit can NOT be fitted directly to any older Status Basses.

Status soap-bar pickups with 3-way, single / twin coil-tap switching. Available on 4 and 5 string pickups. Upgrade price :

175.00	145.83
--------	--------

Some custom active EQ modifications may be possible.

P.O.A.	
--------	--

All Status Basses are setup with Status "Hotwire" strings.

All necks, bodies, Status pickups, circuits, LEDs, wood-work, lacquering, finishing and assembly is carried out in the Status workshop in England
